

A Day at Minstead

11 September 2017

Today years 4, 5 and 6 all spent the day at Minstead Study Centre in the New Forest.

All children were split into groups of mixed year groups and we spent the day doing a range of amazing activities that helped us develop a greater understanding of the world we live in.

The children got to feed chickens and sheep and we learnt lots about what farmers do to look after them and how

we use them to not only feed us and keep us warm but also how we use them in a range of other products.

We also went for a walk in the wood, waded through a stream, got very muddy and learnt more about the planet that we live on and how we must do our bit to look after it and protect it.

A fascinating day had by all!
