

Open the Book Assemblies

January 2018

All this term we are having volunteers from St John's Church in Hythe come and present stories from the bible in whole school assemblies.

Starting at the beginning with the story of Adam and Eve, our children are watching these important religious stories come to life in an engaging and interactive way.

These assemblies are part of a nationwide project called 'Open the Book', which offers primary school children an opportunity to hear the major stories of the Bible, from a team of Christians from local churches, who present the stories during our assemblies/acts of Collective Worship.
