

The Big First Aid Lesson

3rd November 2017

Today years 4, 5 and 6 took part in the Big First Aid Lesson. This was streamed live by the St John's Ambulance. They learnt about what they should do if somebody is choking or is burnt. The lesson was split into 3 different parts. Throughout the session, the children joined in with the workouts and quizzes.

After each discussion, they were given a quiz about what they had just learnt. The questionnaire was only 4 minutes long, so they had to be quick. After that, the presenter would reappear and begin the lesson again, but on a different topic.

The lessons were informative, enjoyable and active!
